

Data reflected in this report is voluntarily submitted to the NAIC proprietary Complaints Database System (CDS) by state insurance departments. Not all states provide all of their complaint data to the NAIC. Aggregate report data retrieved is specific only to risk bearing entities within the database and does not include information on specific agents/brokers. Complaints retrieved are those states deem confirmed. The NAIC does not guarantee the truth, accuracy, quality or completeness of the data and is not responsible for errors, omissions or for results of further use.

Report Description: The Closed Confirmed Consumer Complaints by Coverage Type report provides counts and percentages of the types of insurance coverages. The Summary of Coverage Counts section provides count summaries for the seven insurance coverage types and percentages of total counts. The Detail of Coverage Counts section provides counts for the first and second level coverage codes for each insurance coverage type from the NAIC's Complaint Database System. The data codes identified are based on the NAIC Standard Complaint Data Form.

A Closed Complaint is a complaint that has been investigated by the state insurance department, and given a resolution code.

A Confirmed complaint is a complaint in which the state department of insurance determines:

a) The insurer, licensee, producer, or other regulated entity committed any violation of:

- 1) an applicable state insurance law or regulation;
- 2) a federal requirement that the state department of insurance has the authority to enforce; or
- 3) the term/condition of an insurance policy or certificate; or
- b) The complaint and entity's response, considered together, indicate that the entity was in error.
